Integrate SAP FPM and BOPF | Technical Concepts in SAP

BOPF - Creating Delegate Node I have demonstrated how to create a delegate node (Text Collection in our case) and have added records in the Text Collection, created a test report program to demonstrate usage of helper class and retrieve by associations to retrieve the text contents, going further we are consuming the Dependent BO in FPM.

BOPF - Creating Delegate Node - Blogger

Getting Started with Business Object Processing Framework By following the steps in above document, I have covered below aspects: Create a business object, including the root node

Custom BOPF Business Object | Technical Concepts in SAP

An example of this is the Floorplan Manager BOPF Integration (FBI) framework which simplifies the way that FPM feeder classes access BOPF nodes. Much of this will become clearer as we move on. For now, suffice it so say that the BOPF provides us with a tremendous springboard for developing business objects.

Navigating the BOPF: Part 1 - Getting Started | SAP Blogs

I have demonstrated how to create a delegate node (Text Collection in our case), also have created a test report program to demonstrate usage of helper class and retrieve by associations to retrieve the text contents, going further we are consuming the Dependent BO in FPM.

Creating Delegate Node | SAP Blogs

The upper layer is the UI layer where it can be FPM (BOPF is tightly integrated with FPM) or Fiori to display the data. And then comes the Transaction layer which gets instantiated automatically whenever we interact with the BO, low-level transaction handling like lock objects are handled by the transaction layer.

Practical BOPF Overview for Beginners and ABAPers

I started working in SAP TM module (Version 8.1) 1 year back and we hardly find little help since we started working on it. My past experience enforced me to publish this blog which I hope it will definitely help developers to learn and understand how to retrieve the data by making use of

Business objects based out in BOPF framework.

BOPF Overview and Report development using BOPF framework ...

Getting started with Floor Plan Manager (Web Dynpro for ABAP) By Pranav Nagpal, Infosys . What is FPM? Floorplan Manager (FPM) is a Web Dynpro ABAP application that provides a framework for developing new Web Dynpro ABAP application interfaces consistent with SAP UI guidelines (Standard definition from SAP doc).
