costs • 73% are comfortable with the accuracy and timeliness of project level reports. Project management information systems (PMIs) not yet ubiquitous • 50% use PMIS; of those that don't, 41% plan to introduce this within 2 years • 32% of those that use PMIS have yet to integrate it with their accounting and procurement software. 2 | Global construction survey 2015 | Climbing the ...

Global construction survey 2015 - assets.kpmg

Global construction costs are expected to rise 4.3 percent in 2018 following a 4.0 percent rise in 2017. 21 of the 46 markets measured are expected to warm up in 2018, just two are expected to cool. New York once again holds the top spot for highest construction costs, ahead of Zurich.

International construction market survey 2018 | Turner ...

Problems can occur on any construction project, large or small. As a string of widely reported delays, cost overruns, contractual disputes and even failed projects in the UK and elsewhere show, the waste-to-energy sector seems to suffer more than its fair share.

Why are energy-from-waste schemes so troublesome ...

considering entering the global construction market, knowing when and where to invest is critical. As is doing one's homework to understand the relative costs and economic pressures across multiple global jurisdictions. The consequences of not doing so can be time overruns, spiraling costs or even project failure. The insights provided in this report can prove invaluable when making the ...

INTERNATIONAL CONSTRUCTION COSTS 2016 - Arcadis

International Construction Costs report details the relative cost of construction in 44 of the world's major cities. Last year's theme was 'forewarned is forearmed', where we highlighted that cost was one of the key factors that determine which developments go ahead and deliver positive outcomes. We made the case that access to reliable data and insight, combined with effective control ...
