Trending. There's a mod that PC players of Grand Theft Auto V can download and install for their game called GTAV Redux. The GTA V version of this mod is the latest in a line of graphics-enhancing mods designed to make the game look even better than it did when it launched on PC.

### **GTA 6 Release Date UPDATE: Will next-gen Grand Theft Auto ...**

99.9% of these "ultra-realistic next-gen grafix" mods are just reshade presets that fuck up the art-style and looks visually inconsistent in moment to moment gameplay. VisualV is still the best one, because it sticks to the vanilla style, while making various enhancements instead of going crazy with oversaturation and black crush.
