This PDF has been retired. For updated information, please ...

Clarification Statement: CDC and HICPAC have recommendations in both 2003 Guidelines for Environmental Infection Control in Health-Care Facilities and the 2008 Guideline for Disinfection and Sterilization in Healthcare Facilities that state that the CDC does not support disinfectant fogging. Specifically, the 2003 and 2008 Guidelines state:

Disinfection & Sterilization Guidelines | Guidelines ...

necessary infrastructure, facilities, equipment and trained personnel to provide appropriate

infection control measures. Health care facilities, in both developed and developing countries, were far from being prepared to deal with the situation. In this context, it is essential that all countries strengthen their surveillance and response systems as well as their infection control capacities ...

Practical Guidelines for Infection Control in Health Care ...

And even more important is the validation system, where the qualification of equipment, utilities and facilities has to be part of. GMP Facility & Re-Construction Designing an appropriate layout belongs to this part as well as understanding what the GMP requirements for the cleanrooms and for the HVAC systems are, depending on the type of manufacture.
